

Code A

12th August 2002

Dear Chief Constable Kernaghan,

I last wrote to you on 7th May 2002, when I made a formal complaint concerning the way that Superintendent **Code A** **Code A** handled my complaint concerning my mothers care while she was in the Gosport War Memorial Hospital.

On 12th June 2002 I met with **Code A** and **Code A** **Code A**, who took a statement from me.

It is now over a month since the CHI Report was published, and proved that the complaints that I and others were making were correct.

Code A phoned me in July and informed me that a police meeting was to take place, a few days after which I would receive a letter. That was over three weekes ago and to date I have still not received it.

I have had phone calls from the press, and they appear to be better informed than I am.

I have also been told that **Code A**, a support worker for the DCC, states that all the reports have been forwarded to the CPS and that the DCC are awaiting their advice. How is it that a support worker has this information to quote over the phone, while I am waiting for the information by post?

It is nearly a year since my mother died, and it has been very stressful, with all the different channels that I have had to go through.

I am looking for justice for my mother, peace of mind for me, and a better standard of care for future patients in the War Memorial Hospital.

I look forward to your reply,

Yours Sincerely

Mrs Marjorie Bulbeck
