Dr. A.C. Knapman,
The Surgery,
148 Forton Road,
GOSPORT,
Hants.

Dear Dr. Knapman,

Re: Norma WINDSOR **Code A**
Code A

Diagnosis: CLL, Ischaemic Heart Disease

She was due to come to the clinic today so I popped up to Sultan Ward to say hello to find her in a very miserable state of mind saying that she had not eaten or drunk anything for weeks although she has not lost any weight. The little food that she has tried in hospital has led her to having terrible attacks of vomiting and diarrhoea although the nurses have seen no physical evidence of these problems. Her other principle complaint is of severe back pain and I hope you will forgive the fact that I have interfered to the extent of asking for a lumbar spine x-ray and asking physio to assess the problem with her back.

Her haematology is stable with a haemoglobin of 10.5 g/dl. I do not think this is the time to start any further treatment of her CLL. I will pop in and see her again next time I do a clinic in Gosport.

Yours sincerely,

Code A
