Dr. Knapman,
The Surgery,
148 Forton Road,
GOSPORT,
Hants.

Dear Dr. Knapman,

Re: **Norma WINDSOR** Code A
Code A

Diagnosis: CLL
Ischaemic heart disease

I am happy to say this lady is hugely more cheerful than when we last met. This may of course be due to the uplifting effect of a small dose of Prednisolone but there are objective findings. Her voice is much stronger. The small nodes on the right hand side of her neck and at the back of her head have gone. The big node on the left shows little change as yet and her haematology is also unchanged. I am really very gratified for these improvements that have taken place in the last fortnight. I have prescribed her some more Chlorambucil and Prednisolone and we will meet up again in one month's time.

Yours sincerely
