Dear Mrs. Windsor,

I have just received a copy of the report on the lymph node that I took out of your left axilla. Rather as I suspected, this is a reflection of the chronic leukaemia for which you have been under treatment.

I have actually discussed you over the telephone with Dr. Green today and he will be sending you another appointment. I myself won't arrange to see you again and I trust that your wound has healed without any problems.

Best wishes,

Yours sincerely,
