Please reply to Dr. D. Colin-Jones,  
Consultant Physician.

13th September, 1978.

Dear Dr. Nicholls,

Re: Mrs. Norma WINDSOR, 30 San Diego Road, Gosport, Hants.  
dob: Code A DCJ/PT/G.54971

I carried out endoscopy on Mrs. Windsor which confirmed that she has the family problem, namely a duodenal ulcer. She had a previous ulcer crater, in the duodenal cap, with multiple superficial areas of ulceration. I think we should treat her with Cimetidine in full dosage for six weeks, followed by our maintenance therapy.

Yours sincerely,

**Code A**
