Dear Harry,

Re: Mrs Norma WINDSOR [Code A]
[Code A]

Inspite of having settled when I saw her last, Mrs Windsor has had a lot of ulcer troubles for one of the months in the last three. I have nodoubt, therefore, that this confirms Duncan Colin-Jones' opinion that she should have surgery and I will so arrange. I have urged her to stop smoking over the operative period and warned her husband that unless he does likewise, she is likely to restart with an increased risk of recurrent ulceration.

I hope to admit her to Queen Alexandra hospital over the next month.

Kind regards.

Yours sincerely,

Code A
