

ACK/AAC

16th September 1993

Mr. Huw Thomas,  
Audiology Department,  
Queen Alexandra Hospital,  
COSHAM, Hants.,

Dear Huw, RE: Norma WINDSOR, Code A  
Code A

I would be grateful if this lady could be offered a hearing test with procedure to a hearing aid, if you feel it necessary. If this could be done at Gosport this would be preferable, but she would happily come to QA.

She has been noticing increasing hardness of hearing over the last year or so. On examining her ears, they both seem healthy and she has a positive Rinne, so I think she is probably getting neuro-sensory deafness of age.

I would be very grateful if you could see her for an audiogram and an aid, should she require one.

With kind regards.

Yours sincerely,

A.C. KNAPMAN.
