Gosport

Dear Knapman

RE NORMA WINDSOR Code A  
Code A

Further to my recent letter, I have now seen the results of this lady's modified Bruce Protocol exercise test. She had significant ST segment depression at a low work load (stage 2 - modified Protocol). Although she is pretty asymptomatic, I am sure we should proceed to cardiac catheterisation and I have taken the liberty of arranging this.

I shall report to you in due course.

With best wishes.

Yours sincerely  
Code A

DR RICHARD JONES  
CONSULTANT CARDIOLOGIST
