Dear Ms Ward

Gosport War Memorial Hospital Inquest

As you know, this charity is trying to provide some support and facilitation to families involved in the forthcoming inquest and to other families who lost a family member at the hospital. The pre-inquest hearing takes place on 14th August and provides an opportunity for the solicitor who will be representing some of the families, Code A at Blake Laphorn Tarlo Lyons, to ask the Deputy Coroner whether he is prepared to consider more of the deaths than the ten he has already announced. I know some of you would like that.

I therefore enclose a short questionnaire to complete and return direct to the solicitors if you wish your family member's death to be considered by the inquest, together with others. I am sorry for the short notice, but if you wish the solicitor to ask for this you will need to complete it and send it to him as soon as possible so that he has it by Wednesday, 13th August.

What documents do you have? - please list the types

Everything was passed onto the medical council.

What are the main reasons that you consider that there should be an inquest in the case of your relative (five lines)

to follow.
 Failure of hospital procedures lead to gross neglect - no fluid or food charts completed, absence of medical notes & information. serious lack of communications between nurses and consultant. Failure to listen to the family.

Do you give permission for us to provide a copy of this questionnaire to the Coroner and to request that you are included within the inquest?

Yes.

Please let us know if there is anything else you consider to be relevant? (three lines)

Doctors & consultant at St Marys were shocked at mums condition on arrival and told us to be prepared for the worse. Mum was moved in the early hours of 6th May to intensive care at QA where she died at 2.30am on the 7th May 2000.

Hi Sis,

I am going round Sheena's tonight to try and complete. I have had a look at the form and need help with the following questions, add anything you can and we will try our best:

- 1) Your address and contact telephone number -
- 2) Reason why admitted to hospital? for a rest because of depression
- 3) Date of admission? april 2000
- 4) Alleged cause of death? murder through gross negligence and refusal to acknowledge it was more than depression and refusal to admit her to a medical hospital because it would cost 700 pounds a day which would have been an extra packet of cigars less for the fucking sadistic bastard.

11/08/2008

5) Brief description of circumstances of death (five lines) from driving a car about about to space cowboy and dead in less than 2 weeks. died within 36 hrs of insistance by sisters for a second opinion so knapman the tosser had her moved before he was found out to be son of shipman.

6) Names (if known) of any of the doctors or nurses who provided the treatment.

7) Which ward were they on? I think it was Sultan ward.

8) Was Diamorphine and or any other treatment administered through a syringe driver device? Probably knowing that twat.

9) What regime for fluid intake was there?

10) What investigations have been undertaken so far? An inept attempt at investigation by the police.

11) Was there a police investigation? - give details as above, details were crap.

12) What documents do you have? - please list the types

13) What are the main reasons that you consider that there should be an inquest in the case of your relative (five lines) murder

14) Please let us know if there is anything else you consider to be relevant? (three lines) yes, hurry up before the wanker dies and gets away with it

I will have to sign on your behalf

Thanks

Hi Sis,

I am going round Sheena's tonight to try and complete. I have had a look at the form and need help with the following questions, add anything you can and we will try our best:

1) Your address and contact telephone number – Code A

Code A

2) Reason why admitted to hospital? – Rest and recuperation for herself, and rest for Dad.

3) Date of admission? - Not sure if Sheena has this, but around the end of April 2000

4) Alleged cause of death? – I think it is heart failure on death certificate

5) Brief description of circumstances of death (five lines)

Was in war memorial for rest, was very dehydrated and incoherent whilst there and not eating, was not looked after by staff whilst she was there (always looked out of it)

Deteriated very rapidly on the 5th May and moved to St Mary's

We were told she had organ failure, Doctors at St Mary's shocked at condition she was in when moved there and told us immediately they did not expect her to survive

Moved in early hours of the 6th to Intensive care at QA and was there until the 7th when she passed away.

6) Names (if known) of any of the doctors or nurses who provided the treatment.
 Dr Knapman

7) Which ward were they on? Can't remember

8) Was Diamorphine and or any other treatment administered through a syringe driver device? None seen by relatives, but was very spaced out all of the time with symptoms that would not have been caused by her normal medication

9) What regime for fluid intake was there? Fluid intake when given was by mouth until the morning of the 5th when if I remember correctly she went onto a drip

10) What investigations have been undertaken so far? Complaint to Portsmouth Health Trust, Police investigation where she was one of the last few being

- I believe mum died from gross neglect in the care of G.W.H.
- Evidence in nursing notes of this.
- We were told by St Mary Consultant that mum should never have been allowed to have got into this state.

investigated, they told me in July 2007 that there was no criminal cause for prosecution but there could well have been medical neglect and the papers would be passed to the medical council. I have not received any further correspondence but believe that mum was in the last 15 being investigated.

11) Was there a police investigation? - give details Operation Rochester

12) What documents do you have? - please list the types I don't think we have any documents any more as the police said they were going to pass everything onto the medical council and I thought these were going to be used for the inquest when it took place.

13) What are the main reasons that you consider that there should be an inquest in the case of your relative (five lines)

Mum was neglected whilst in the war memorial and it was significant enough for the police to investigate for a long time. I believe she was also given drugs that were not recorded and that they neglected her medical state long enough to cause her to go into septic shock, even though all of the family kept telling them there was something wrong and were continuously complaining to the nurses.

14) Please let us know if there is anything else you consider to be relevant? (three lines)

I will have to sign on your behalf

Thanks
