Dear Mr. Williamson,

I apologise if my telephone calls and the enclosed Report intrudes upon your privacy. It was due to the enclosed report that the Police had no alternative but to commence a further investigation in 2003. Even after the publication in July 2002 the Deputy Chief Constable was literally sweeping the table as a meeting 1 and 10 others attended stating categorically he would not allow another investigation & he did not and would not allow me to ask any further questions!

As the result of a campaign with letters to Blair, Melburn, CDS, Solicitor General & Attorney General within 3 weeks Alan Melburn appointed Prof. Baker to carry out

2

an audit of deaths at the Gosport was  
 Memorial Hospital. The Report has not been  
 published to the public. within another 2  
 weeks. Prof. Robert French of Supreme  
 fame was appointed & the Chief Constable  
 had no alternative but to allow another  
 investigation from 2003 - 2006.

I think you should read the Report even  
 if you find it shocking - it is not so  
 shocking as to what has been going on  
 behind the scenes in the House of Commons  
 etc with Peter Viggers attacking me etc.

Please keep in touch - as I have stated in  
 the Press & TV etc. I did not go to the  
 Police in October 1998 because my mother  
 died - I went because I was and am  
 convinced the law has been broken and I  
 based my case to the Police on points of  
 law - gross medical negligence  
 manslaughter. The great cover-up  
 continues on police incompetence. Many  
 families who came forward in March/April  
 2001 - eventually 92, have never been

allowed to make a statement. I assume  
you received a copy of the medical files  
from Gosport and Haslar. If I can be of  
any help in going through the records  
please let me know.

Yours sincerely
