Just to make it abundantly clear I am not referring to the discharge letter to Gosport on 11 August and 17 August I have copies. I am not asking for sight of Haslar staff statements made to the police – I am asking for confirmation and explanation - that you received those Statements made to police and an explanation why they were not referred to at the hearing . This has nothing to do with the Data Protection Act. Gillian M Mackenzie PS I am well aware that some statement were made to police in Germany and Police Officers were sent to Germany to take them – in the same way that I am aware that the Police Officer was taken off the case just as the papers were sent to the CPS in December 2000 . How odd that the GMC received papers in June 2001 when I was not notified that my case was not going to the criminal Court until August 2001 and a police officer had already been assigned to accompany me !!Gillian M Mackenzie
