Subject: RE: Draft high profile response - [Code A]

Thanks [Code A]

I much prefer your refusal to that sent by the DH, both in terms of explanation and the S31 subsection applied. I'm happy for this to go without reference to anyone else.

Regards

Julian

Subject: Draft high profile response - [Code A]

Julian,

I've drafted a response to [Code A] who requested a copy of Prof Baker's report. This is a high profile request so I though you should take a look at this to ensure you are comfortable with it.

<http://livelink/edrms/lisapi.dll?func=ll&objId=41024711&objAction=viewheader>

[Code A]'s view at the DH, that I have taken on board, was essentially that we should not make disclosure whilst proceedings relating to Gosport are ongoing. He advised that there is one inquest outstanding (I believe Gladys Richards). I have also closely mirrored the response [Code A] had from the DH when she made the same request to them to aid consistency. (See <http://livelink/edrms/lisapi.dll?func=ll&objId=41021669&objAction=viewheader>)

I have left the s41 angle which we briefly discussed Monday out at the moment but I'm happy to make amendments subject to your comments.

Many thanks

Code A
