Thanks Julian

This looks good. My only suggestion, would be to soften the language slightly; could we say "sorry" for not being able to send the letters/or at least show that we recognise this will be a disappointing reply?

Happy to discuss.

Best regards,
Ben

Ben/Dave

Attached is our proposed response to Mr Wilson – you will recall that he is a relative of one of the deceased patients on the Jane Barton case – he sought copies of the letters of support. You will see that [Code A] has made reference to a telephone conversation that she had with Mr Wilson some weeks ago.

Your views on the draft would be gratefully received.

Regards

Julian
