### Results

#### Search Values

Surname = Barton  
 Given Name = Jane  
 Sex = Woman

5 Records have been found that match your search criteria.

To be sure of finding the correct doctor you should use the GMC reference number (see [obtain a doctor's GMC reference number](#)).

<u>GMC Reference Number</u>	<u>Given Names</u>	<u>Surname</u>	<u>Gender</u>	<u>Status</u>	<u>Year of Q</u>
-----------------------------	--------------------	----------------	---------------	---------------	------------------

Code A	Carol Jane	Barton	Woman	Not Registered - Having relinquished registration	1972
<h1>Code A</h1>			Woman	Registered with a licence to practise	1999
			Woman	Registered with a licence to practise	1998
			Woman	Registered with a licence to practise	1980
			Woman	Registered with a licence to practise	1985

Please Note: The absence of a record does not necessarily mean the doctor is not register.

### Data Protection & Privacy Statement

Dear Mr Dickson,

I am not able to find Dr Jane Ann Barton on the above List of Registered Medical Practitioners. So much has been made of the online register by the GMC but once again we see dysfunctional secrecy at the GMC and sheer panic.

Of course, I am aware of the true reason for the absence of Dr Jane Ann Barton's name from the register. It is GMC's embarrassment; a doctor who should have been struck off but was allowed to go on. GMC is too embarrassed to give details of her case on the online register. Why you did not put a statement in the Details Section? It is so simple.

People are dying because of the GMC FTP decisions taken in my case, but the lives of the mentally ill patients who have committed suicide do not matter. They are mad, are not they, and so why should GMC bother? My patients could be seen as a tax burden too. Did you know that more than 70% of the world population has one or less psychiatrists per 100,000 of population? Do you accept that it is right for the GMC to continue depriving people of mental health care just because I stood up to the bad government policy (on religious uniforms), and opposed bad decisions made by the GMC itself? What do you do when people say " No" to you?

 Kind regards,

Code A
