Expert Review

Ronald (Fresde	e
----------	---------------	---

No. BJC/14

Date of Birth: Code A

Date of Death: 7 July 1996

Mr Cresdee was a widower living on his own at home. At the time of his admission to Gosport War Memorial Hospital on 17 June 1996 the district nurse was visiting him twice a week. Mr Cresdee's son had also been on leave from the Navy to look after him as Mr Cresdee was finding it hard to manage on his own.

On admission Mr Cresdo	ee was noted to have	Code A	with	
Code A	He was	Code A		
Code A				
The expert review noted	that this patient had pair	n from Code A	of	
the Code A and was clearly dying. On reviewing the medication given to Mr				
Cresdee it was noted to	hat there was a possibi	ility he may have o	leveloped	
Code A after a dose increase, although this was still at a modest dose				
level.	Code A	were man	aged with	
sedation. The notes are r	not clear as to whether the	e Code A le was b	eing used	
as a sedative or whether t	the GPs were worried abo	out the underlying pa	in.	
The experts agreed Mr C	resdee's death was inevit	able from Code	e A
