Dear Dr Barton

RE: CHILD HEALTH SURVEILLANCE

The FHSA is re-considering all doctors awaiting full accreditation in Child Health Surveillance and the procedure is now the direct responsibility of the Medical Adviser, Dr M Parsons, who is following the national guidelines.

I apologise for sending yet more forms, however we are anxious to accredit all GPs who have both the necessary experience and qualifications. I have enclosed the draft policy along with Appendix C and would be grateful if you could read the national guidelines carefully and re-apply when you feel you are able to sign the declaration.

Yours sincerely

Alex Clark
Operational Assistant
