23 July 2008

Dear Tamsin

Please find enclosed a list of all the documents that Hampshire Constabulary have amassed during the investigation into GWMH/Dr Barton. There are in fact a number of lists.

The first being a list of all documents that we have in our possession. This includes' other documents, messages, officers reports, statements, transmissions (E mails) and interviews.

Although this is a list of all the documents it only gives a cut down summary of the other documents and the name of the author for the officers reports and statements, I have therefore included further lists for the other documents giving a full summary and other lists for statements and officers reports also giving a summary of the content of the document but not the author, so the two lists will have to married together.

The action list outlines the task but doesn't give a result or indication as to whether the action was ever completed. The exhibits list is thankfully straight forward.

The only item that has been embargo is Professor Baker's report, I know that we have mentioned this before and if a copy is required please obtain this from the Chief Medical Officer who commissioned the report.

Please contact me if further explanation is required, all of the documentation is at Waterlooville Police Station if anything needs to be viewed.

Yours sincerely
