Investigator's Notebook

CRIMINAL PROCEDURE AND INVESTIGATIONS ACT 1996.

Officers have a duty to:

Record	Retain	Reveal	Review
Record all information relevant to an investigation, not otherwise recorded in any form, at the time of obtaining or as soon as practicable after that time.	Retain means keeping all material obtained in a criminal investigation which may be relevant to the investigation (includes surrounding circumstances of the case) and failure to ensure this, may result in a failed prosecution.	Reveal means ensuring the CPS are aware of all material relevant to the investigation. The CPS will disclose material to the defence if in their opinion it might undermine the case against the accused. Failure to reveal material may result in a failed prosecution.	Review, there is a continuing obligation to "4R's" any material that comes to light prior to and during trial.

These books will be issued against signature to all officers engaged on an investigation at its commencement.

At the conclusion of the investigation all books will be surrendered to the Disclosure Officer who will certify their return.

They will be filed with the case papers.

These books should record all notes made, for example:

- conference and other rough notes
- telephone numbers etc.
- notes relating to a witness i.e. statement preparation, the witness name must be linked with those notes.

To assist the Disclosure Officer, an 'S' should be placed in the margin alongside any obvious sensitive entries i.e. Informant, OP's, Police intelligence and Police/witness address/phone numbers. **NO** other document to be maintained except Pocket books, which will still record evidence.

Operator have a strong analgesic effect

Increasing in small doses
With mechanical damage eg broken bones patient will always complain
of pain. Prescribing opiates - when get to opiate toxication you stop.
dr within slightly before. Would not go past 5mg. because you cannot
predict pain with a broken bone.

Nurse administering drug calls Dr to ask for increase.

P107 Co dyphanol - moderate

When given dipyrone from 93/9 (P106) 925mg - 5mg. Moderate painkilling. Job provided by Dr. Birla. (cannot do Dr's signature) Med notes

No would be if the process would be unlikely to work.

No an admission on Ward may be up as at 28/9/98. If the usually Dr not speak with consultant/family

Tim is know protocol.

Nurse apprise patient. If my price has to pay know team
The nurses start have at price. Cardiac message, mouth to mouth.
Team along to rebreath why heart on breathing stop.

Cancer patients can tolerate large amounts of morphine so they might be on 30mg twice daily. This would have been progressed to on the analgesic ladder and for orally.

There is a conversion scale for dosage of oral morphine to subcutaneous or i/v.
Oral would be higher in mg because of the effect.

A ~~11/92~~ 29/9/98 ~~has~~ reviewed ex wife spoken to as usual.

A1487
Reason for
No on review

P171 29/9/98 Evidence of alcoholism, renal function not working properly. Liver function affected.
Whole page Dr. Birta.

P172 1/10/98 Ward found with register - Would have agreed because status would have been yes if diagnosed with Dr. Birta.

P175
P176.

Wilson had psychiatric - psycho geriatric review. Early dementia / depression
Seen by Rosie Lusznak consultant psychiatrist.

P168

~~Normally Dr~~ prescribed Morphine as additional to A&E.

~~Do not know if alcoholics are opiate resistant.~~

As patients become better after 2-3 weeks in my opinion should cease because it makes the patients less mobile (drowsy).

If liver is damaged you have to be cautious with opiates because it makes you ill. British National Formulary say this.

#

The BNF protocol both changes every six months. You have to use this for prescribe drugs. You refer to this and has cannot contradict BNF.

Dr Birla 24/9/98.

Plithoric face = red face.

Dupuytren's contracture - Skin at base of finger shrinks. This can be operated on - Alcoholic

Gynecomastia - Developed breasts - because of ~~some~~ alcohol.

1 1/2 yr ago was in hospital with heart problems.
On spironolactone these disease.

Thiamine - given to alcoholics. One slice a day of bread a day.
B1.

A normal diet he would not need Thiamine.
Wilson must have had a deficient alcohol.

Would not take long to remedy. One of many things that can help.

For recs. on 24/9/98.

TRAZADONE - Depression/anxiety
Hydrocortisone
