Dear Mr Marshall,

OPERATION ROCHESTER

Thank you for your letter dated 15 Sep, received this morning..

It gives me considerable relief to hear that you are making further enquiries into the case against Dr Jane Barton and, presumably her staff, of the Gosport War Memorial Hospital. The events surrounding the death of my stepfather are totally unacceptable, and these individual need to be brought to justice.

I will make myself available to assist in any way possible, and ask that you ensure the Crown Prosecution Service is given full information upon which to base a prosecution, something they were patently denied in Dec 2006.

Kind regards,

Code A

Charles Stewart-Farthing
