Message:

She has had a letter from Nursing and Mid Widfrey Council stating they had decided not to go ahead with her case after the referrals made to them by Hampshire Constabulary. They had decided that in 2001. But she has only been told now.

They have thrown away Papers. Wont reconsider Case. Will not confirm whether they saw Professor Livesey's Report, which stated that mother had been unlawfully killed by the three named Nurses and Doctor Barton.

They are only considering the members of the public who wrote to them in Sept 2002 after Ian Weedland Dept Chief Constable stated on 11th Sept 2002 that he would not allow any investigation into there cases.

The NMC state that she personally had never made a complaint. She has been informed by Hampshire Police that there was no need for her to write, as they had taken appropriate action and despite numerous Tele conversations she has had with NMC over 10 years they have seen fit to inform her of there descision of 2001 today.

She will be informing all concerned parties as once more Beed is going free.
