Can you update the FGM contact list. Mrs Graham spoken to at 1155 - 1205. I explained that all medical records were examined by the Forrest team which would have included the death certificate. In addition, that the records were again examined by the legal/medical expert together with all family concerns. I further explained that the matter now lay with the GMC and NMC.

Sir,

Mrs Graham phoned this morning, she wanted to know if Leonard Graham's death certificate accompanied the paperwork from which the medical experts formed their opinion? She has been told that it did not get sent. She has also been told that all of the 1's and 2's have been sent to the GMC. She would like somebody to clarify the above with her.
