Problems: ~~IgM Lambda~~ paraprotein
 Nephrotic syndrome
 Renal impairment

Enclosed is a copy of my letter to Doctor Cranfield. I would be grateful if you could change her prescription for diuretics to Amiloride 5 mgs od and Frusemide 120 mgs od. This can be done when she gets near to running out of her present supply. I will monitor her potassium and renal function at the next Clinic visit.

Yours sincerely,
