Spoke with Professor BAKER mobile **Code A**

He thanked us for the WILSON papers and the briefing note and will look to answer the questions posed in the required format within the next 4 weeks.

Ultimately he would be content to examine Dr BARTONS observations in respect of the case against his findings.

He reminded that it would be useful to establish when Dr BARTON was away for extended periods to compare the mortality rates over during such periods against when she was present.

DW.
