Mr Ryder,

I'm not sure whether we can assist you any further at the present moment. The files are being prepared on a case by case basis. I hope that by next Monday there will be two or three cases complete. The case papers will include not only the medical notes but also copies of witness statements and expert reports. Each component part of the case will be required to enable a full assessment to be made.

I have provided similar information for analysis to GMC IOC panels in respect of a number of investigations during the last 7 years. I'm sure that no decision will be made in respect of a hearing until all the papers have been considered for every case. With this in mind we will supply a full set for each case as they are ready.

I'm more than happy to release the papers to you on a case by case basis if this would allow you to speed up your own processes. Please feel free to contact me at anytime either with this email address or on the below number

Regards

Dave Grocott
Detective Inspector

Subject: Operation Rochester

Dear Mr Growcott

I refer to your email sent to my colleague, Luisa Morris yesterday in response to our request for copies of documents relating to the 14 category 3 cases.

I note that given the volume of documents the copying process will not be complete until the middle of January 2007. In view of this I wonder whether it would be possible to prioritise copying of the medical evidence in each of the 14 cases, in the hope that this may be ready for collection at an earlier date.

The information is required by the GMC to assist in the consideration of an interim orders panel hearing in this case.

Regards.
Robert Ryder
Associate
