Alan..

I provided the Strategic Health Authority with a full confidential update on 31st January 2005..

Case papers are with the Crown Prosecution Service who have appointed Counsel.. those papers currently under review..

Whilst timescales are always difficult to predict (particularly with significant work being commissioned to evidential medical experts) should investigations continue at the current rate we will complete the criminal investigation this year.

We have about 80 statements to take to complete the evidence gathering..

Being realistic counsel are not likely to advise whether there is a sufficiency of evidence to support a criminal prosecution until they have received the totality of the evidence including all of the responses from Dr BARTON and key healthcare statements which are scheduled for completion through to November 2005.

Your staff to date have been incredibly co-operative given the difficult nature of the subject matter.

Regards..

Dave WILLIAMS.
Detective Superintendent.

David,

the chairman Lucy docherty asked me if I had heard any update from hants police re progress on the inquiry. I have not heard anything since we last spoke but was under the impression that you were taking a sample of the most likely cases to DPP around march.

are you able to update me at all on the overall progress and key actions /timescales, I am aware that interviews with staff have been on going during the inter regnum,

regards

alan Pickering
