David..

I had been hoping to get into Fareham today but I have had to work out of Grosvenor House finalising aspects of OP BALTIMORE..

Would you be available for an hour next Tuesday morning the 8th June at Farham to discuss?.

I spoke with Mathew earlier this week, I questioned him about his terms of reference and he was suitably vague.. There is no conflict of interest in terms of his current Q/A deployment and we really need him to complete his work around the 2's and 3's so that we may inform the respective families.

I will set him some realistic but tight timescales.. I have also informed him that we will be giving him written terms of reference for completeness although I appreciate it is a little late in the day for that..

Geoff QUADE has drafted letters to Anne NAYSMITH and Peter LAWSON requesting top 4 batting order in respect of 3b's.

What is important is that we get things rolling in terms of making arrangements for the interview of Healthcare staff.

I was going to suggest that as you have already raised the actions in respect of JARMAN that we commence with those prioritising them, I would appreciate your views..

We will need to set up a meeting with the GWMH to update them as to the current phase of the investigation and to perhaps secure some accommodation on site to conduct interviews and have office space/telephone etc. We will also need to take the GWMH views in respect of ongoing impact assessment.

I am also looking to visit CPS next Wednesday if possible to discuss the investigation strategy.

Regards..DW.

Sir,
Unfortunately not as Wednesday is the opening day of trial and I'm it for next week.

I would like to make a meeting with Matthew however. My eyebrows are raised by his discussion re potential conflicts? I don't see how his role has changed to date but I do know that he is concerned about the amount of work (that he has now realised) that is expected of him. He has asked for written terms of reference which I think is a good idea. I would like to discuss this issue with you prior to a meeting with him.

Secondly, I've briefed up Code A re the job and they are both starting in earnest on Monday morning. Is Code A starting Monday as well? I would like to get Code A working straight away but have you decided how we are going to progress the next phase?

Dave

David..
 Are you able to make the meeting with Mathew LOHN on Wednesday 9th June at 1430?..
 DW.

David,

1. Thank you for this, Andrew Wilcox appears to be well qualified for the role, and I would wish to appoint him ASAP so that we can move forward expeditiously.
2. I would just like, however for you to discuss his appointment with Matthew Lohn to confirm whether Mr Wilcox's validity is strong & with the CPS representative allocated to the case to ensure that they are content.
3. Re the meetings;

I will be able to make the meeting with the CMO, and would hope to be able to make the meeting with Ann Alexander.

I will not be able to make the meeting with Matthew Lohn, I will e mail him & copy you into the message.

Please let me know the result of the meeeting ASAP following it taking place.

Regards
 SW

>Dear Dave

>CV attached as requested.

>I have been seeking permission to do this work from my head of school (as I have to do these days). He has advised that as it is fee paying, I set it up as a contract through Nottingham University Consultations Limited (this is a university set up which effectively means everything I am doing is above board from their point of view). I will contact them and let you know. I will give them your e-mail in so they can contact you direct. The contract is likely to be a per hour/per day fee plus expenses (e.g. travel). I guess I'll have more of an idea about the level of this once I have talked with the expert witness societies.
