Telephone No	
Postcode	Code A
Date Of Birth	
Occupation	[CHAIRMAN PRIMARY CARE TRUST]
Address	Code A
Forename 1	[LUCY CLARE]
Surname	[DOCHERTY]

I am Lucy Clare DOCHERTY and I live at an address known to Hampshire Police. I have been connected with the National Health Service /cat /hse for several years. I held a voluntary part time position as the chairman of the Maternity Services Liaison Committee (MSLC), which was a committee of the Portsmouth and South East Hampshire Health Authority /cat /L34 for 3½ years. In 1999 I became the Lay Member of the Fareham Primary Care Group until 1st April 2002 (01/04/2002) when I was appointed chairman of the Fareham and Gosport Primary Care Trust (PCT).

During the morning of Monday 16th September 2002 I attended a meeting with Ian PIPER /N179 , Jane PARVIN /N138 , Jan PEACH /N254 , Kathryn ROWLES /N256 and Sue GALLEY /N257 to discuss how we would coordinate the media coverage of the issues surrounding Professor BAKER's /N140 audit at the Gosport War Memorial Hospital /cat . The meeting had to be adjourned as Jane PARVIN and I had a pre arranged meeting at the Gosport War Memorial Hospital.

The purpose of this meeting was to assure all staff that they had the full support of the organisation during the audit, listen to their concerns and explain that the audit would be good for all concerned.

At the conclusion of this meeting Jane and I returned to our office at Fareham Reach. I went into my office in order to hang up my coat and Jane went into Ian PIPER's office. I joined them shortly afterwards and saw that Ian PIPER was holding a folder. ; Jane said words to the effect of "I was handed this by Toni SCAMMELL /N198 at the Gosport War Memorial Hospital".

We were about to reconvene our earlier meeting and the same persons were present. The issues contained in these documents were then discussed and Ian PIPER stated that he was going to inform the Strategic Health Authority < span class="holmesEntity" id="U5"/>/cat /L287 in order that a strategy could be devised covering the contents of these documents. I certainly was not aware of the existence of these documents before this moment and I do not think anyone else was either. The documents were not left in my charge at anytime although we did examine their contents as a group at this meeting. The Strategic Health Authority was informed of the existence of the dossier later on in the afternoon.

Ian PIPER wrote a letter to the Director of Public Health, Simon TANNER /N195 , the next day and sent the dossier with the letter.

I had no knowledge of the issues or circumstances surrounding the use of Diamorphine at the Gosport War Memorial Hospital until the issues were raised by The Portsmouth Evening News /cat /L286 .
