

FILE NOTE

At 0845 hours on 19.9.02., I met D/C/Supt. S. Watts and we:

1. Examined the papers and concluded that they would have to be sent to the Crown Prosecution Service, after being reviewed by appropriate medical experts.
2. Agreed to raise this to a critical in incident and to form a Gold Control group with the intention of meeting at some time today.
3. Agreed that there was a need to consider the appointment of Family Liaison Officers and to notify those relatives who we knew of at the earliest opportunity of this development.
4. We needed to recover the original papers and secure them for evidential purposes.
