COPY LETTER

18th May 2002

Prime Minister
Downing Street
London
SW1

Dear Prime Minister,

I have enclosed a copy of my formal complaint with regards Detective Superintendent John James of the Hampshire police force, and the supposed investigation he has now concluded into the death of my father and other elderly patients at the Gosport War Memorial Hospital.

I do not except his decision now, nor will I ever, I question both his competency and his integrity in coming to his decision.

I believe we have a clear case of systematic unlawful killing and it must be investigated to the full, with all persons connected, both relatives and staff, being interviewed and questioned. At the end of the investigation the findings should be made public or at least made available to those that matter, and any criminal or negligent charges should be dealt with by the courts. The police investigation has been nothing short of a farce and a cover up, the truth must now come out.

It has been said by a member of the police investigation team that this appears to be a fairly common code of practice, has been going on for years and is fairly widespread. This is horrific when you read about it in the tabloid press, when its a member of your family it is unbelievable, a living nightmare.

Prime Minister is there any truth in this officers comments, is this indeed your governments policy on the elderly and 'Bed Blocking' and as I presume that you will deny this, then why wont your government instigate a full and open police investigation immediately and then,make the details available to those that need to know.

I await your early response

Yours Sincerely

Iain Wilson
