At Hasler -
had gall bladder trouble.
- performed colostomy.

- Admitted Hasler March 1993 - for 3/4 weeks.
Dr Lynch was doctor at Stoke Lynch

- went to convalesce at Leigh for 2/3 weeks.
fully active - no terminal illnesses.
- absolutely with it -

to give mum a break - admitted to
GWMH.

- 2nd floor - ward. he would not be
dominated by women!

- put him down into rehabilitation floor

- he had late onset diabetes - he was
on ~~insu~~ drugs for diabetes.

- I was told he had kidney problems.

- he was not in any pain.

- asked by ~~the~~ nurse whether he could go on
diamorphine to make him more comfortable.

Dryad ward.

I said ask mother.
mother said yes.

- ~~at~~ Sunday night -
~~branch~~ no breathing probs.

Friday morning 10:30 am - call to say he'd died

- wasn't senile.

never saw Dr Barton, but she said he had to give the drugs.

- on day he died, didn't see

- didn't ask any questions at this stage - day he died

- wanted to put events behind you.

complaints.

phoned WMT on helpline Sept 02 -

- went away. Came back - Hants HA told me

police

was Mem + we hold investigation.

or AH - **Code A**

- wanted med recs.

want to know truth.
its got to stop -

want her in prison
want all at hosp implicated.

Dr B - started 91-98.
