

Kate Robinson came to see my husband and I just before
 'Kirkman and spent just over an hour with us. He found
 it to be a very pleasant young lady who took time
 and care to find out about our work and operation.
 must say that all the dealings we have had with
 Hampshire Police during their enquiries have been friendly
 and courteous.

Thank you for your letter dated 27th January 2004 and the
 information it contained. Although my family and I have not
 even meeting as long as some people, we will be pleased to
 however whether there is any case to answer regarding the
 death of my father. Having said that we also realize that
 investigation of this nature are very complex and take a time
 to untangle. Therefore we would prefer that all the time
 necessary should be taken and all the relevant facts
 investigated in order that, in the event of any prosecution,
 Hampshire Police are certain of their case. It would be
 tragic if, after all this time and hard work, the case
 numbered in court. ~~However~~ the investigation has been
 carried.

I should like to thank you and your team for all the work you are undertaking on our behalf. It is very much appreciated and very reassuring to know that we have someone to represent us in the complex procedures.

I look forward to seeing you at the next meeting

Yours sincerely
