## Current medical staffing problems:

- Admissions by 11.30 am transport not always that punctual
- No medical staffing cover during 'surgery' working hours or when JB has PCG duties - phone Consultant for advice over phone - not ideal and safe
- Discharge Summaries/ Procedures done by Consultants
- Relatives mostly seen by Consultant
- Inadequate attention to medical problems needs high level of Cons input
- High level of serious complaints/litigation
- No CA input into Stroke pts on Daedalus only medical input from Cons
