**Subject:** FW: ADDITIONAL BEDS AT GWMH

Jan, Martin, Rosemary see below. Proposal is that the GP's give up 6 beds on Sultan and that they become Geriatric rehab/pre-discharge beds. Can you just check that there aren't additional staffing costs associated with the change of use. No more beds in the system but arguably there may be a faster throughput.

A response by the 7th would be good. (Martin sorry, just as soon as you can on your return).  
Thanks.

**Subject:** ADDITIONAL BEDS AT GWMH

Lesley, as agreed yesterday am E mailing to request a cost to increase the number of IC/geriatric rehab beds at GWMH by 6. These additional beds will be on Sultan.  
Am keen to understand what it would cost in terms of additional consultant/staff grade to support these beds.

Many thanks.
