## Out-of-Hours

## Introduction

During 1994 the Government began to implement changes to the arrangements through which family doctors provide 24 hour access to general medical services for their patients. The changes made were as a result of GMSC/Government discussions.

The two basic changes that occurred as a consequence were (a) that GPs were absolved from the clinical responsibility for their deputy when the deputy was on the FHSA list, and (b) it was clarified to patients that GPs were to decide whether and where the patient needed to be seen by a doctor.

Other changes have since taken place to enable General Practitioners to be more flexible about the way the 24 hour commitment is resolved.

This includes:
(1) Enabling General Practitioners to take time off after demanding night calls by varying surgery times in response to night duties.
(2) The provision of Out-of-Hours development money.
(3) The "Help us to Help You" campaign to draw public attention to sensible use of family doctor services.
(4) To change the payment system so that doctors who make other arrangements are not penalised, and to remove the disincentive for sharing Out-of-Hours duties.
(5) Financial support at the rate of $£ 2,000$ per principal.

## The Development Fund - 1995/96

£45m was allocated nationally and devolved to the Health Authority based on GP principles in each Authority at $1 / 10 / 94$.

- In November 1995 Health Commission representatives met with LMC representatives to agree the format for bids to the Out-of-Hours allocation.
- A sum of $£ 420,598$ was made available to the Portsmouth and South East Hampshire Health Commission.
- Bids for an allocation of the Out-of-Hours money were received from individual General Practitioners, Groups of Practitioners and Cooperatives.
- The bids received were discussed with a group of LMC representatives.
- The bids fell into five main categories:
(a) Healthcall (deputising).
(b) Cooperatives (HDOC/GOSDOC (weekends only)), North Wessex.
(c) Enhanced practice provision using surgery premises.
(d) Communication equipment/telephones/faxes.
(e) Telephone answering (staffing).
- A surplus of $£ 27,568.41$ is to be allocated evenly to doctors who produced bids over the original $£ 1,432$ that was received. This sum will be allocated in August 1996.

- A proforma has been distributed aimed at reducing paperwork for 1996/97 bids.
- Proformas returned to Health Authority 28 June 1996.
- LMC/Health Authority representatives to meet in August to consider 1996/97 bids which do not fall clearly into the SFA (Statement of Fees \& Allowances) regulations, and to discuss general principles.
- A sum of $£ 432,000$ has been made available to the Portsmouth \& South East Hampshire Health Authority.
- The general management and administration of the Out-of-Hours money will be processed by the Locality Managers this year.
- Practitioners bid and will be obtaining money from the Out-of-Hours development budget in accordance with SFA, up to $£ 1469$ per principal in post as at 1 April 1996.
- Any schemes that are in need of general consultation with the LMC will be discussed at the meeting between the LMC and Health Authority on 21 August 1996.
