INADEQUATE SMEAR AUDIT - CONDUCTED ON 9.1.2005

The I.T. Manager was asked to perform an audit of inadequate smears for the period 1.7.05 to 1.12.2005.

The audit showed that the percentage of inadequate smears in the Practice was 12.03% compared with 14.90% at the last audit 2 years ago.

The audit results were discussed at a Partners Meeting on 10th January 2005. It was noted that there has been an improvement (fewer inadequate smears compared to the last audit) & it was agreed that no further action was required.

Inadequate Smear Audit for the period 1.1.03 - 30.6.03
