Dear Ray

Thank you for your two recent letters and my apologies for not replying to the first earlier - simply pressure of work.

I can confirm that I have the two x-rays of Mrs Richards hip back in my possession. Enclosed is the amended page from my statement, as requested.

I have read your second letter, but have not yet had the opportunity to explore your questions with those people who may be able to provide answers. We may not be able to supply all that you ask for; for instance was transport from Haslar to Gosport War Memorial Hospital arranged by and therefore under the direction of Haslar.

I will contact you again as soon as I have a better idea of how to best progress the questions you pose.

Yours sincerely

Lesley Humphrey

Nursing Care Plan (LH/1/C/22/1-5) Code A

A Nursing Care Plan form (LH/1/C/22/1) was, in this case, commenced on the 12th August 1998. There are six, subsequent, dated entries covering the period of the 12th August 1998 until the 19th August 1998 inclusive. The majority of these entries may have been made by Staff Nurse FLORIO. I am unable to comment on the authorship of the entry dated the 17th August 1998.

The Nursing Care Plan document embraces four other pages which are designed to enable various aspects of nursing care to be monitored. The pages are headed Nutrition (LH/1/C/22/2), Constipation (LH/1/C/22/3), Bowel Movement Calendar (LH/1/C/22/4) and Personal Hygiene (LH/1/C/22/5). Various entries have been made on these forms. I am unable to comment on authorship other than where the signature is legible.

File Divider - Prescription Sheets & Observation Charts (LH/1/C/23)

This represents an aid to efficient filing.

Prescription Sheet (LH/1/C/24)

This is a six sided, folding, form upon which details of drugs, prescribed and given to a patient, are recorded. Exceptions to prescribed orders are also given.

File Divider - Investigations (LH/1/C/25)

This represents an aid to efficient filing.

Biochemistry (LH/1/C/26)

No entries recorded.

Haematology, Blood Transfusions and Immunology Reports (LH/1/C/27)

No entries recorded.

Portsmouth Pathology Service Microbiology Report (LH/1/C/28)

This form indicates the results of microbiological tests conducted in respect of various MRSA screening swabs taken from Mrs Gladys RICHARDS on the 11th August 1998 and reported on, on the 14th August 1998.

Dear Lesley,

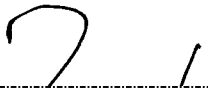

Thank you for sparing the time to see me the other day.

I have just discovered that when I leave here in a minute there will be someone at your Reception Desk with whom I can leave a couple of things for you. Firstly, I am returning the two x-ray images I borrowed which feature Mrs RICHARDS' hip. I may need them again but I am returning them to you, as promised, for safe keeping. I have taken a copy of the paperwork which accompanies the x-rays. I will not do anything with it until I see you again.

I enclose, for your file, a copy of your signed statement together with a copy of the completed typed version incorporating the amendments made, by you, on page 6. I should have noticed the related error in the heading **Nursing Care Plan (LH/1/C/22/1-5)** obviously this should be 4 to fall in line with the other entries. I have enclosed the original page 6 - could you alter the 5 to 4 and initial it. I would be grateful if you would then return the page to me.

As a result of my visit to Professor LIVESLEY I will need to request some more information. I will write to you again, soon, setting out what I need and seeking your advice on how (or if) I can get it.

Yours sincerely,

Code A
