Dear **Code A**

You may remember that I wrote to you in December last year, asking for your permission for us to give the police access to clinical information about your late mother, Mrs G Richards. Following this we were told by the police that they would be pursuing a criminal case.

We have recently been contacted by Detective Chief Inspector Ray Burt, who has been asked to review the case and would like access to Mrs Richards' medical records.

I am writing to again ask your permission for us to allow the police this access. Would you please either telephone or write to me with your wishes on this matter (contact details below).

Yours sincerely
