Bill/Barbara, I've had another letter from DCI Burt, asking for much more detailed information, after his meeting with his clinical advisor. I think this letter/request might cause more unease, so I'm sending you both a copy by post rather than fax. Lorna is seeking the views of our solicitors. we may not be able to answer some of the questions, because we don't know or there are no clear cut answers. I'm not sure who would have all the information requested.

I suggest that I meet with Barbara to go through the letter para by para, identifying who/what etc. [I'll get Denise to arrange this]

Can I ask you two please to share the letter with Jane and Althea etc. I think this is one they should be handed rather than posted - with the opportunity to talk through. I think we may well need to convene a meeting of Jane, Althea, Ian, Barbara, Bill and me [and perhaps Lorna] to talk through this whole case/way forward re this letter - see what you think when you see the letter; it may be that all that is necessary is a methodical working through of questions and agreed answers, which could be done by post. {I'll copy the letter to Ian}.
