

File Note: Gladys Beland Case
Monday 23-4-01.

Tel conversation with PCI Ray Burt.

Ray again confirmed the names of:
Code A Jack Williamson;
 Leonard Graham; as other case
 brought to the notice of the police,
 ● by relatives.

He has another 5 contact names.
 However it is not clear if these people
 also wish to raise concerns about
 breach of specific privacy / relatives.

We agreed that we would not wish
 to compromise the ^{confidentiality} rights of these 5
 people - their wishes are not yet
 known.

We also agreed that we would not
 wish to compromise Trust staff
 by placing them in the position
 where charges of tampering with
 health records could be made
 against them in the future.

The Trust needs to consider very careful
 the actions taken in response to
 disclosure of the other names.
