Subject: RE: Gosport War Memorial Hospital: registration details

Good afternoon, Chris

Thank you for the information about **Code A** I had been able to identify them on the register before today but I am, nevertheless, grateful for your efforts.

In respect of **Code A** can I give you the final answer this time next week? There are some outstanding issues I need to clarify but I will give you an answer by Tuesday. I am out of the office towards the end of the week and Monday. Your comments are noted, however, and helpful.

Code A

I am not assigned to Charles Stewart-Farthing's referral which is being considered to 2004 Rules and cannot speak with any authority on it. Can I refer you back to page 5 of my letter of 19 January 2010. The initial referral was received in July 2009. I can tell you that it is the subject of an internal review, having been passed to our head of case management, **Code A** I am sure that the information in your email will be of assistance to **Code A** in the review.

I can confirm **Code A** I have asked **Code A** to keep the RCN of developments and she is copied into this email.

Finally, in response to your email of 23 February 2010, I can confirm that the NMC is not planning to reopen consideration of the case that the PPC declined to proceed with in September 2001.

Kind regards

Code A

Subject: Gosport War Memorial Hospital: registration details

Dear **Code A**

Further to your letter of 19th January 2010. You asked for the **Code A**

Code A

Code A

September 2000 by Hampshire Police. The case was closed by the PPC in September 2001. In the circumstances, neither Rule 9(15) of the Nurses, Midwives and Health Visitors (Periodic Registration) Amendment Rules 1995 nor Article 12(3)(a) of the Nursing and Midwifery Order 2001 applies. Since her registration has lapsed, she is not a Registrant nor is she a Practitioner under the old legislation. Therefore, she cannot now be subject to Fitness to Practise or Professional Conduct Proceedings.

Please would you confirm that no further action, either under the old or new rules, will take place against **Code A**

Code A

Code A

My understanding is that the referrals by Charles Stewart-Farthing were made in 2009. **Code A** Therefore, she was not a Registrant at the time of the referral, and Article 12(3)(a) of the Nursing and Midwifery Order 2001 does not apply. Therefore, she cannot be subject to Fitness to Practise proceedings.

I am not certain of the date when **Code A** nor of the date of the referrals by Charles Stewart-Farthing. I would be grateful if you would confirm these.

If the dates are confirmed, please would you confirm that no further action will take place against **Code A**

Many thanks

Chris
