Code A

Dear Mr HORSLEY..

Following our Operation Rochester meeting of the 11th April 2007 I believe I promised to send you some factoids around the sheer size of the investigation..

92 cases reviewed.

Of those 10 principal cases of real concern ..all graded by a panel of experts as cause of death unclear and sub optimal care delivered.

Deaths at Gosport War memorial hospital between 1996 and 1998.

The common denominator is Dr Jane BARTON the attending clinical assistant in each case.

The medical notes and expert evidence (39 expert statements) runs into thousands of pages.

The witness statements of the coroners file (we have distilled them to the key statements only number 368.

The GMC will not be in a position to give an indication as to their likely outcome until June 2007.

May I confirm that the Coroner file witness bundle is available and can be delivered whenever you wish to receive it..

Regards..

Dave WILLIAMS
Det Supt
