

Message from Mrs McKenzie
6.11.08
1.30pm

She is late writing letter to you because she has nursing home commitments but asks that the following message be given to you.

She is a bit concerned from your letter that you might have got some dates wrong so has given the following dates:

29.7.1998 – Entered Haslar Hospital. Was ready to leave Haslar at the end of one week to go back home but kept at Haslar until 11.8. after being assessed by Dr Ian READ to go to Gosport so that Mrs McKenzie could find a different nursing home.

11.8 to Gosport War Memorial Hospital – is discovered on the floor on 13.8. while sedated and returned to Haslar on 14th for dislocated hip.

Kept at Haslar until 17th because found on the floor (and returned to Haslar on 14.8. and kept until 17th).

Returned to Gosport on 17th for 2 – 4 weeks' rehabilitation and set up on a syringe driver by Philip BEDE for massive haematoma and died on 21st. No evidence of haematoma.

I pointed out that if her commitments prevent her from writing straight away, the Coroner will understand.
