Dear Sir

We understand that you are investigating the deaths of 10 patients from the Goshawk ward. Mortality rose during the 1990's.

My parents' death was 1996 and 1999 and both of them were involved in a police investigation with the name name and operation "Rocky".

My father died in 1996. My father attacked me for which we were hospitalized for a mild relative we were told he died a few days later.

My dad a very active man who was a hill digging his garden through a very strange lasted only from 1st June 1999 to the end June 1999.

He had left his hospital for an overnight stay in the hospital we were there with him. When I discovered a needle in his neck and there was a funny word of "Mammaw" with stay who would not speak to us on our arrival.

The building was removed from the rest of the hospital. We know that during was heard and we cannot hear or without a certain amount.

More than deaths. You described my sister and I am familiar of hospital treatment. I am knowing then.

My husband says "Breathing" "Sick" and is concerned on the subject our parents are included in the 10 patients you are investigating.

since we've had no mention that they are included and if not 'Why' since 1997 I have Paper work concerning them.

Please can you confirm as to if our Parents are listed in your file to be investigated?

I don't should we get in touch with medication IV etc we feel very strongly its very reg as any for us when my husband was admitted into hospital. I was terrified for his safety and stayed almost all night watching what was given in and when I had a serious cancer operation myself I fought with my life to Percocet and had no Morphine for Pain relief for I thought they were doing what was done to my Mum & Dad

so Please include our Parents so we can move on which is something we cannot do right now.

I can arrange to come down for an interview with you if you give me 48 hours notice to do so or Perhaps you could ring me after 4.15 pm on the above number in the next few days

My Parents were  
Mrs Edith Aubrey      Mr Perry Charles Aubrey  
Died 15th June 1996      Died 2nd June 1999  
85      age 87

Thanking You.

Mrs

ps I spoke to DC

**Code A**

Portsmouth Police centre.  
on Thursday 20th March, they rang me and gave me your address.

Mrs Barney (tel no at some times of the day Code A) telephoned this morning re Mr and Mrs Auberry.

She wanted to know why she hadn't heard anything yet (I pointed out that her letter was only received Friday and you were out this morning, but she seemed to think that should have been long enough for her to have had a reply).

She wants the following questions answered:

- Are Mr and Mrs Auberry included in the Gosport War Memorial Hospital Inquest?
- If not, why not?
- If she does not hear from you she will get in touch with Meridian Television.
- She just wants an answer "yes" or "no".

She is willing to come down to discuss the matter with you.

Val
