Dear Roy,

Happy New Year!

I have listed a further Pre Inquest Hearing on 19 January at 10.00 at Portsmouth because there are various issues to address.

I am preparing the agenda now but need contact details for Dr Wilcock to fix his evidence. Do you have anything nearer than University of Nottingham and if possible a telephone contact.

Blake Laphorn are now down to Gregory and Packman having dropped Farthing and Devine

I am scheduling the evidence and the only fixture I have at this stage is Prof Black for 24 & 25 March and if we need him for any longer it can't be 26!

Do you have any particular observations on witness schedules?

I want to see the notes at some point and it has been suggested they should be copied and paginated but I really do want to avoid that because of information overload for the jury.

I have written to the MoJ again saying I think this is a Public Enquiry case and that Inquests will not serve the public interest. Don't hold your breath!

Andrew Bradley
