Subject: Gosport War Memorial Hospital

Dear Dave,

I believe you are now holding all the original medical notes and a complete set of exhibits for this. Can you please let me have a copy of the list because I suspect I will have applications for disclosure although I am anxious to contain this as much as possible.

I do want to ensure the original hospital notes are available for the Inquests and I suspect the Health Authority should produce them and for that purpose I think they should be returned to Mills & Reeve unless the police need to retain them for any reason

I have fixed 18 March for the start of these Inquests although I have not yet had formal confirmation from Portsmouth Combined Court. However I am chasing that and will confirm to all interested persons when I have that

David Horsley is applying for permission for an Inquest into the death of Gladys Richards but I am not sure if he is intending that she should be part of this lot. I think the considerations are different but I am waiting to hear from him.

Please let me know if there is any problem with any of this.

Regards,

Andrew Bradley
