Your ref:

Dear S.N Tubbritt.

Thank you for your letter dated 31.10.91 informing me of the meeting that took place on 31.10.91 with Gene Whitney, at Redclyffe Annexe re the use of Diamorphine at Redclyffe Annexe.

Once more state that I am happy to discuss any areas of concern that stall may have, in fact I would welcome open discussion. ~~as I feel~~ as I feel the only alternative is disruptive criticism which achieves nothing positive and leaves staff feeling frustrated

Yours Sincerely,
Isobel Evans
