	Code A
DC Code A	Okay and also present is Just introduce
	yourself by name.
Code A	Code A
DC Code A	Okay and your Code A son and you're
	here as a bit of moral support basically.
Code A	Yeah, yeah.
DC Code A	Okay. The time is 18.05 and the date is, what is
	the date, it's Monday isn't it. Monday 26th of
	June, 2000. This interview is being conducted
	in the interview room at Park Gate Police
	Station. At the conclusion of the interview I'll
	give you a ntoice explaining what will happen
	to the tapes and it just details basically what the
	procedure is, what I explained at the beginning,
	okay. I must remind you that you are not under
 	arrest and you are free to leave at any time and
	you are entitled to legal advice at any time,
	okay and that includes delaying the advice at
	any time. Do you require legal advice at this
	stage?
Code A	Not at this stage.
DC Code A	Okay. You can discuss it with a solicitor on the
	telephone, would you like to discuss with a
	solicitor on the telephone?
Code A	If and when the need arises.
DC Code A	Okay, but not at this time?
Code A	Not at this stage of the game.

DC Code A

Right, okay. What I'm going to do now is just go over, I've got this bit to read out and it's just hopefully will explain exactly what we're after and why we're here, then we'll go from there. The Hampshire Police have undertaken an investigation into the circumstances of the death of Mrs Gladys RICHARDS on the twenty first of August nineteen ninety eight at Gosport War Memorial Hospital, here I can't say that (laughs). The investigation centers around an allegation that Mrs RICHARDS was unlawfully killed as a result of a course of treatment that was embarked upon between the seventeenth and the twenty first of August whilst admitted to this hospital. We are seeking to interview those members of the nursing staff who had a duty of care to Mrs RICHARDS during that time and who in some cases may have provided her with direct nursing care or treatment in order that an account can be obtained to the particular circumstances and issues that existed between those dates. I emphasise that this is a seach for facts and your accounts and answers will be carefully assessed in the light of information arising from other interviews with staff and general correspondence. As a result of this interview and several others further guidance will be sought from professional

DOCUMENT RECORD PRINT

bodies and ultimately the Crown Prosecution Service on how we should proceed. Now as I say just declined legal advice but there is a solicitor who has got relevant material to this and we'll show the material throughout the interview. I emphasise you are not under arrest and you are free to leave at any time, your right to free legal advice in private extends throughout the period you're at the police station. You do not have to say anything but it may harm your defence if you do not mention when questioned something which you later rely on in court, anything you do say may be given in evidence, okay. Now that's a caution and I think just to explain that, it sounds sinister but all its saying is, it's making you aware that obviously this interview we will be using and looking at and listening to and if there is any proceedings against anybody it may well be used in evidence, okay. That is a long way off if ever, I mean and that is not a decision that myself or Paul will be taking, in fact, it won't be a decision that the police on their own will be taking there will be you know advice from medical experts who will assist with this you know it's not going to be something that some policeman who's got no experience with medical profession is going to say well yeah

DOCUMENT RECORD PRINT

there's a problem there and off we go, so as I say it's basically for us to ask you some questions and to get an account from you, if you can't remember you can't remember. As I say it was two years ago, as you've said it was two years ago, okay. Alright, do you understand?

4.22

Code A

DC Code A

Yeah.

I think what I'll do now I'll just explain exactly what the allegation is. It's been made by two people, a Mrs LACK and Mrs MACKENZIE who are the daughters of Mrs RICHARDS and were at the hospital at various times between the seventeenth and the twenty first of August, They make several nineteen ninety eight. allegations, those being that the way she was transferred from Haslar hospital where she'd had a hip operation and then subsequently dislocated and had it put back in there, from coming back there to Gosport there's an allegation of the way she was carried by the ambulance staff, there's concerns about her being denied water towards the end and the level of medication she was on, there's disagreements over that and they feel that medication, no again I understand in your role that the medication is not something you deal with but I'm just obviously given you the wider

W14 OP ROCHESTER -CURRENT FROM TRAIN 140409 HZ042

L1212

Printed on: 30 June, 2009 15:39

Page 5

of 26

DOCUMENT RECORD PRINT

picture so it's basically the level of care and the medication she's put on that they've basically got an issue with. As I say we're basically getting an account from all members of staff and I think what we'll do is perhaps you could give me, explain to me your role in the hospital, your experience at Daedalus, how long you've been there and what you're sort of expected to do on a day to day basis.

6.07 Code A

Right erm well first of all I work night shift so basically any sort of like, there is a difference between the night duties and the day duties.

DC Code A

Right, yeah.

Code A

To the extent of there's not constant people there all the time, in the areas. Erm what we basically do, oh I'm sorry I've been there two and a half years and my basic role is for supporting trained staff in whatever capacity. I don't have anything to do with medications at all...

DC Code A

...No.

6.40 Code A

...that isn't my field. All I do is general hands on nursing, that's bathing, making people comfortable, anything they need sort of toilet functions, I'm there for that, I'm there for helping them in the night if they want to use the toilet or the commode whichever way and basically in the morning giving them a wash,

W14 OP ROCHESTER -CURRENT FROM TRAIN 140409 HZ042

L1212

Printed on: 30 June, 2009 15:39

Page 6 of 26

DOCUMENT RECORD PRINT

		and getting them for their morning cups of tea
		and then they, day staff come on and they carry
		on from there with regular checks in the night
		depending on obviously the state of play of
		their health
1	C Code A	Right.
	Code A	if their health is sort of terminal then we do
		checks sort of ten, fifteen minute intervals
	OC Code A	Oh right.
	Code A	we check it out, we don't ever leave anybody
		that's terminally ill without somebody actually
		seeing if they're okay, you know for short
		breaks of time.
	C Code A	Yeah, yeah.
	Code A	It's obviously they're the priority so they get
		checked out more so than what they would if
		they were sort of able or whatever, the
		terminally ill always given the most priority as
		regards observations.
7.51 D	C Code A	Yeah, what sort of experience have you had in
		treating the elderly or?
	Code A	I have over twenty seven years nursing
		experience with the elderly.
	C Code A	Right, okay and two years at
<u> </u>	Code A	And two years at the War Memorial
	OC Code A	at Daedalus.
[Code A	yeah, at Daedalus, yeah.
	C Code A	Right, okay. What sort of patients do you get

W14 OP ROCHESTER -CURRENT FROM TRAIN 140409

HZ042

L1212

Printed on: 30 June, 2009 15:39

Page 7 of 26

DOCUMENT RECORD PRINT

into Daedalus?

Code A We get people that need stroke rehabilitation.

DC Code A Right.

Code A Erm and also we have long term, what they call

long term elderly care, continuous care...

DC Code A ...Right.

Code A ...so that they come in and you know you try

and rehabilitate to the best you can but you know it's long term elderly care so it is a bit of

a different limitation to what you give for

people that are short term or respite.

DC Code A Yeah, you are going to recover and...

8.30 Code A ...That's right, it's virtually if you have them on

respite as well they come in and they are given physio, and they encouraged with the nurses to

do a lot more for themselves, this kind of thing

and then they're fit to go home and they lead a

relatively normal life after a stroke...

DC Code A ...Right, yeah.

Code A ...so that's basically it, two types of people that

we look after.

DC Code A Yeah, okay. So have you worked permanent

nights since you've been at....

Code A ...Yes I have.

DC Code A You have, okay. So it does differ, how does it

differ to the day shift do you know?

Code A Well you don't get that much communication

with relatives, you don't get that much

W14 OP ROCHESTER -CURRENT FROM TRAIN 140409 HZ042

L1212

Printed on: 30 June, 2009 15:39

Page 8

of 26

DOCUMENT RECORD PRINT

communication with sort of like what I would call everyday members of staff, you've got your own team that's on nights which can fluctuate from night shift to night shift who you are working with but it's still within that team.

Yeah.

9.22 Code A

DC Code A

Whereas when you're on days, you've got sort of regular teams again but they're in their own little lots as well so really on nights it's basically three nurses, you've got your staff nurse that's in charge of the ward and you've got yourself and another health care support worker plus you've got the nurse that's in charge of the hospital throughout.

Right, right, okay so in relation to the checks to the terminal, if you came across something that was a problem you would basically go and see the staff nurse in charge of the ward?

Yes, yes you would indeed you would, if there's any change whatsoever in your considered opinion of the change of condition no matter how small you would report it, even just a flicker you know it may not seem important to everybody else but because your in that job and you're trained for it you can, you know over that many years that something wrong instinctively, you would go to your nurse in charge.

DOCUMENT RECORD PRINT

DC Code A	And just yeah and make her aware.
Code A	And then she would be aware of it and she
	would come and check it out.
10.31 DC Code A	Yeah, okay because as I understand it the ward
	is visited daily by a GP?
Code A	Well I don't know the daily routines so much so
\	with being on nights
DC Code A	Right, okay, yeah, okay.
Code A	so what goes off on the days apart from
<u> </u>	general report that we get on handover and the
	patients condition you know that's as far as I'm
	aware.
DC Code A	Okay. Are you aware what happens on nights
"	if there is a problem and staff nurse thinks well
	I'm not happy about this, who would she go to?
Code A	Yeah, well if the staff nurse is not happy then
	we, erm then she would erm inform the nurse
	that's in charge of the whole hospital
DC Code A	Right
Code A	because the doors are locked at a certain time
	in the hospital so therefore they've got to have
	easy access for visitors coming in and this sort
	of thing well the nurse that's in charge of the
	hospital informs the porter of visitors and well
	the nurse in charge does as well but they do
	inform the porter that you know people are
	going to be on the premises that he won't know
	and they'll be coming to the door and they need

DOCUMENT RECORD PRINT

		letting in and showing off, this kind of thing.
11.30	DC Code A	Oh right, and I mean if there's, a doctors
		required for any reason do you know how
		theyis that something that you got involved
		with or have seen?
	Code A	As far as I'm aware if there's a doctor
		involved then the nurse in charge will inform
		the doctor.
	DC Code A	Right.
	Code A	And then go on actually what the doctor would
		say.
	DC Code A	Yeah, advises.
į.	Code A	Advises her what to do then.
	DC Code A	Yeah, okay. Right as I've said in my long
		winded introduction this relates to Gladys
		RICHARDS, now have you had a chance to
 		look at your duties, I know some members of
		staff had a chance to look back at their duties.
	Code A	Yeah
	DC Code A	Can you remember what you were doing?
·	Code A	I believe when I looked, actually glimpsed at
		what I was actually doing that on the eighteenth
		it was
12.19	DC Code A	Right
	Code A	I believe it was the eighteenth, on nights that
		night.
	DC Code A	Okay.
	Code A	Erm and basically I'd reported in the care, in

W14 OP ROCHESTER -CURRENT FROM TRAIN 140409 HZ042

L1212

Printed on: 30 June, 2009 15:39

Page 11 of 26

DOCUMENT RECORD PRINT

	the basic care plan for her what I did in the
	morning
DC Code A	Oh right.
Code A	and that was to give her a bed bath and mouth
	care and make her comfortable.
DC Code A	Perhaps we'll go to that now then just to, so you
	can talk us through that
Code A	Yeah.
DC Code A	for the purpose of the tape this is Gladys
	RICHARDS health record which is I
	understand basically covers everything that sort
	of happens to her in the hospital?
Code A	Uh uh, this is whats made up on admission all
	the bits and pieces.
DC Code A	Yeah. You have different forms don't you?
Code A	Yeah we have different forms for different
	things, now what we basically do on nights is
	we do the one erm one's relevant either
	personal hygeine, bowels open and also erm
	how they spent the night, whether they spent it
	poorly or whatever
13.25 DC Code A	Oh right.
Code A	if on occasions we might not write that in it
	might be the nurse in charge
DC Code A	Yeah
Code A	will write that if there's any extras to write or
	she might even just write it anyway
DC Code A	Right, okay.

W14 OP ROCHESTER -CURRENT FROM TRAIN 140409 HZ042

L1212

Printed on: 30 June, 2009 15:39

Page 12 of 26

DOCUMENT RECORD PRINT

Code A	depending on circumstances
DC Code A	Yeah
Code A	but she's always sort of like documents
	everything that we do is documented at night.
DC Code A	Oh, okay.
DC Code A	Is that everything thatif there's a change?
Code A	If there's a change in her condition it would be
	documented
DC Code A	It's documented, yeah.
Code A	and the relatives informed.
DC Code A	Right but I mean obviously you mentioned that
	fact that you visit like the terminally ill about
	every fifteen minutes?
14.02 Code A	That's right yeah.
DC Code A	But you wouldn't document each of those visits
	to say that you've visited her and she's okay?
Code A	Depending or not whether they want it.
DC Code A	Oh right.
Code A	Because sometimes there is erm procedure
	where you do, are requested to do that
DC Code A	Right but it's not a matter of course for every
	patient?
Code A	it's not a matter of course for every patient,
	no.
DC Code A	No, okay.
Code A	It's only when you come across anything that
	you shouldn't
DC Code A	That you feel needs noting and
Code A	No, okay. It's only when you come across anything that you shouldn't

W14 OP ROCHESTER -CURRENT FROM TRAIN 140409

HZ042

L1212

Printed on: 30 June, 2009 15:39 Page 13 of 26

DOCUMENT RECORD PRINT

Code A

...needs telling.

DC Code A

Yeah.

Code A

Yeah, yeah.

DC Code A

Okay.

Code A

~So with that one, that's what erm this one when it says about the clean and comfortable, level accept..acceptable to him or her, now what we do in the morning is when we have the poorly ones like obviously Mrs RICHARDS was sort of terminal we will give a bed bath but we will give a bed bath under direction of the nurse in charge...

14.51

DC Code A

...Right.

Code A

...it's on her discretion normally speaking if erm we feel there's a need for a full bed bath then we will give a full bed bath, if not then it will be a reasonable wash without causing undue harassment...

DC Code A

...distress, right

Code A

...to the patient erm and the oral hygeine is a matter of course as well because if they're wearing dentures or not the mouth has to be cleaned, must be cleaned erm and this is what we do, we make sure that the mouth is cleaned and a complete hy...bed bath there would be a top to toe wash and to make sure that they were very comfortable, change of nightie, comb of hair ecetera and just leave them as comfortable

W14 OP ROCHESTER -CURRENT FROM TRAIN 140409 HZ042

L1212

Printed on: 30 June, 2009 15:39

DOCUMENT RECORD PRINT

		as possible.
	DC Code A	Is that your entry down there at the bottom of
		the personal hygeine page the eighteenth?
15.41	Code A	Erm I wrote both of those I think.
	DC Code A	Right
	Code A	Yeah.
	DC Code A	Okay, the purpose of taping that is the
		eighteenth of August as I say a complete bed
		bath given
	Code A	Yeah.
	DC Code A	plus oral hygeine?
	Code A	Yeah.
	DC Code A	Okay.
	Code A	That would be the morning of the eighteenth.
	DC Code A	Morning of the eighteenth, so seventeenth
		through to the eighteenth?
	Code A	Yeah.
	DC Code A	What hours do you do on nights?
	Code A	I do from er quarter past eight is handover to
		quarter to eight in the morning.
	DC Code A	You mentioned a minute ago that Mrs
		RICHARDS was terminally ill!
	Code A	Ah huh.
16.08	DC Code A	Do you know, can you remember or are you
		aware of what she was dying of?
	Code A	No I can't remember to be honest.
	DC Code A	No.
	DC Code A	Okay, now you've obviously had a chance to

W14 OP ROCHESTER -CURRENT FROM TRAIN 140409 HZ042

L1212

Printed on: 30 June, 2009 15:39

Page 15 of 26

DOCUMENT RECORD PRINT

		look at these notes
	Code A	Well I've just looked at that one.
	DC Code A	Yeah, yeah. Without sort of looking at the
		notes but we will sort of go through in a minute,
		whatdo you have any recollection of Mrs
		RICHARDS or her family?
	Code A	I'm afraid I haven't, none whatsoever because
		like we've got people coming in, going all the
		time and alright maybe she should have stood
		out as she was terminal but then you do have
		quite a few terminals as well so it would have
		to be something extroadinary to stand out
	DC Code A	Yeah
	Code A	in my mind you know.
	DC Code A	Did you remember like a I mean you've been at
		Daedalus for two years now I mean on
		occasions are there certain individuals that you
		can bring to mind because of certain problems
		they had or instances that happened at the
		hospital with them or anything like that?
16.59	Code A	Well like for the religion side of it
	DC Code A	Yeah.
	Code A	erm if you've got somebody with a Jewish
		believe for instance or a Jewish diet something
		like that
	DC Code A	Yeah
	Code A	that's extroadout of the ordinary then you'd
		have to adhere to

W14 OP ROCHESTER -CURRENT FROM TRAIN 140409 HZ042

L1212

Printed on: 30 June, 2009 15:39

Page 16 of 26

DOCUMENT RECORD PRINT

	DC Code A	Any sticks in your
	Code A	any special diet and what have you or any
		special treatments I mean like for instance with
		Jewish people you wouldn't give a complete
		bed bath, you'd have to leave well alone
i	DC Code A	Oh right
:	Code A	because of their religious reasons, a rabbi and
		sort of thing, you'd have to leave be, it would
		be up to him to do all this business so unless it's
		something that really prominantly sticks out
		I'm sorry but that's the way
17.38	DC Code A	No, okay so no memory of'cause as we
		understand it there was her two daughters with
		her?
	Code A	Yeah well I never met the daughters after you
		see.
	DC Code A	You never met them, okay.
	Code A	As far as I can recall anyway.
	DC Code A	Alright, so some of these questions it may seem
		like I'm asking the same question but I'm not.
		So there's no time do you remember Mrs
		RICHARDS shouting out or anything like that,
		any discussions about her?
	Code A	I can't honestly remember.
	DC Code A	No, okay. Right, okay just want to go over a
		few general questions now. Now in relation to
		feeding and providing water for a particular
		patient, what sort of rules do you go by or

W14 OP ROCHESTER -CURRENT FROM TRAIN 140409 HZ042

L1212

Printed on: 30 June, 2009 15:39

Page 17 of 26

DOCUMENT RECORD PRINT

		guidelines do you go by for those?
	Code A	Well we, usually it's at the discretion of the
		trained staff again.
D	C Code A	Right.
	Code A	Erm if there's risk of choking and this sort of
		thing
D	C Code A	Right, okay.
	Code A	you've got to take that into account erm if it's
		a person that's had a stroke then they would
		have to have thickened fluids this kind of thing,
		some people areerm like a feed
D	C Code A	Oh right, yeah.
18.51	Code A	peg feeds erm some people have nasal tubes
		for feeding er there's different regimes of
		feeding really.
D	C Code A	Yeah, okay. Was that someis that something
		you'd be able to administer, the sort of the
		tubes and the or would that be done by a
		trained?
	Code A	No, no that would be a trained staff
D	C Code A	that would be trained staff, okay.
	Code A	at the discretion of the day nurse, trained
		staff.
D	C Code A	Your role would be obviously sort of normal,
		sort of provide the drinks and food in the
		normal way if they were up to
	Code A	Well that's right at the discretion of the staff
		nurse in charge, she would let you know what

W14 OP ROCHESTER -CURRENT FROM TRAIN 140409 HZ042

L1212

Printed on: 30 June, 2009 15:39

Page 18 of 26

DOCUMENT RECORD PRINT

		she felt the patient was capable of taking. You
		may feel you know yourself, oh well maybe a
		little drink here or drink there but then they
		know better than you, they've seen it all.
	DC Code A	Yeah.
19.36	Code A	Been round the park as it were so they know
	DC Code A	Yeah.
	Code A	like the score, you don't take it on yourself at
		all.
	DC Code A	I wonder if you wouldn't mind just taking a
		moment, just have a I mean this is aif I start
		from the beginning, this is a contact record for
		Mrs RICHARDS which you may not have the
		opportunity to look at, just have a quick look
		through and see if there's anything that is
		relevant to you or you say oh yeah I remember
		being I think it was as you say one night you
		were there but if you just want to take a look
		through.
	Code A	(looking through documents)
	DC Code A	I'm asking that, I'm not saying that there is,
		there may not be anything there so just give you
		the opportunity to(pause)
		(looking at documents)
	Code A	You see there's your staff nurse there, these are
		things that the staff nurse does.
	DC Code A	Oh right, that's
	Code A	That's all what the, the duties of the staff

W14 OP ROCHESTER -CURRENT FROM TRAIN 140409 HZ042

L1212

Printed on: 30 June, 2009 15:39

Page 19 of 26

DOCUMENT RECORD PRINT

		nurse and staff nurse actually reported for the
		night
21.09	DC Code A	Right.
	Code A	so it was me that did the reporting in the
		morning, yeah.
	DC Code A	So you would go back to the staff nurse and say
		oh she's restless or she's, a particular patient is
		restless, all this, that and the other
	Code A	Yes, yeah
	DC Code A	and then staff nurse would note it down, or
		restless night or
	Code A	Yeah, yeah the staff nurse would go more in
		depth.
	DC Code A	Yeah
	Code A	You'd say basically what you saw.
	DC Code A	But she'd, what you said would form part of
:		what she would put down or
	Code A	She would either document or she would
1		hand the report over to the following staff in the
		morning.
	DC Code A	Would you get involved in because I know that
		they sort of, you have briefings don't you at the
		beginning of your shift
	Code A	Yeah.
	DC Code A	or the nurses, staff nurses do. Would that be
		something you would be?
	Code A	We all get briefed.
21.49	DC Code A	Right, you do.

W14 OP ROCHESTER -CURRENT FROM TRAIN 140409 HZ042

L1212

Printed on: 30 June, 2009 15:39

Page 20 of 26

DOCUMENT RECORD PRINT

	Code A	But I mean obviously we get briefed and the
	t!	staff nurse would get briefed to an extended
		version as and when required really.
	DC Code A	Yeah.
	Code A	I mean we get briefed in our role as well, I
		mean we get a general picture
	DC Code A	Yeah.
	Code A	and then of course there's like staff nurses
	<u></u>	role and our role.
	DC Code A	Yeah so they differ so there be bits of
	Code A	They can differ obviously the medication that
	Code A	they talk over and this kind of thing you fill in
		•
		any medication change or whatever, it's just
		basically knowing your own boundaries and
	pol ⁻	what you're actually
	DC Code A	Yeah, yeah.
	Code A	you know, the level of care you are giving is
	~~:	to you personally, there's two auxilliaries.
	DC Code A	Yeah the briefing is pitched to what your role
	<u></u>	is?
1	Code A	That's right, that's right
22.32	DC Code A	As opposed to
	Code A	I mean if the staff nurse needs you to know
		any further then she will tell you but I mean
		nothings ever kept secret but it's just the way it
		goes thatyou know it's just concerned with
		your care, what you're giving is what is
		translated from the staff nurse and she knows

	her role as well, what she has to give as well
	so
DC Code A	Yeah, sure.
Code A	part of the team.
DC Code A	Just one question here on the nutrition page,
	now there's a gap here between the when she
	came back on the seventeenth and I know you
	didn't get involved in feeding because they
	were asleep half the time but would there be
	any reason why there would be gaps like that
	you know for what's that four days?
Code A	Yeah, I'm not sure, I'm not sure at all, I
	wouldn't like to say.
DC Code A	No.
Code A	No, 'cause I mean this is the daytime.
DC Code A	Yes
Code A	So whatever happens in the day happens in the
	day so I wouldn't like to say anything on that
	one.
23.29 DC Code A	Now I understand these forms, the care plan is
	kept at the foot of the bed is that right?
Code A	Yeah, yeah.
DC Code A	So when you've done something you can pick it
	up and
Code A	Yeah, yeah.
DC Code A	Okay, it's not you. (Looking through) Okay,
	then we're onto the drugs.
Code A	The actual drugs, they don't do anything

DC Code A	No
Code A	I can't do anything about the drugs at all, I
	can't say anything about those because they're
	not my domain.
DC Code A	No, okay. You've got no sort of background or
	able to say what that particular drug does if?
Code A	No, no erm basically erm we're told what is
	like prescribed if we, if we're looking for any
	erm what they call contra indications.
DC Code A	Oh right, yeah.
Code A	In other words any complications that might
	arise from that drug.
DC Code A	Yeah.
Code A	Erm because there's some drugs that you can
	take for instance that you can't take dairy
	products with
24.49 DC Code A	Oh right.
Code A	them kind of things so we're informed on a
	drug like that if there's going to be any adverse
	reactions or if it's been put on there just to sort
	of observe, you know like it's been put on that
	day and they're doing a checkout to see if the
	patient is actually allergic to that drug then they
	will tell you that, like that the possibility of
	sickness and this kind of thing, they've taken a
	tablet or whatever.
DC Code A	So it's for you to keep an eye out to report
	back?

	qualified than you, are you, is there a course of
	action you can take to make somebody else
	aware saying look this is happening and I don't
	think this is right?
A	Yes, yes there is.
ode A	There is, yeah and what is that course of action?
A	Well basically erm if you don't like what's
	been hapwhat's happening erm and you've
	got a gut feeling about anything then you go to
	the person who's action you're querying it with.
ode A	Yeah
	And you ask them why is it happening? Why,
	what for, for whatever reason can you give me
	a reasonable explaination 'cause you wasn't
	happy with the way it was conducted whatever
	and if they seem very vague or evasive or
	anything that you feel is wrong about the way
	they're coming across then you can say right
	well I'm not happy with your answer and I have
	to take it further.
Code A	And then you go further up the chain?
Α	You go further up the chain, you go to
ode A	Have you had any cause to do anything like that
	in your career at all?
A	No.
Code A	No.
A	No.
ode A	Fine.
	A Code A
