Subject: RE: CT SCAN OF BRAIN

Hi Sheila,

There is nothing on PACS so not sure how they got the "digital" copy of it. I have looked on the RIS system and I can see that a film was printed at the time so that's where they may have seen the images. Sounds like your going to have your hands full on this inquest!

Regards

Martin

Subject: CT SCAN OF BRAIN

I have been asked to find out if a CT Brain Scan performed on 18/10/1999 for an Elsie Devine No 26061104 has been digitally imaged?

Mrs Devine is one of the patients being investigated in the Gosport War Memorial Hospital Inquests and we have been led to believe that the police have seen a digital copy of it. Would you please check the system and let me know.

Thanks for your help.

Sheila
