

D/w Elaine 24/6/2008

At time of incidents – Portsmouth HealthCare PCT  
Then went to East Hants & Fareham & Gosport PCT  
Which then became Hampshire PCT

Therefore, any remedial action taken as a result of incidents at the time was Hampshire PCT responsibility

Any current actions required perhaps by Coroner after Inquest, will be ours.

Files

Elaine holds general admin file on the police investigations, some complaint files, a CHI file on their review of the cases. The Police had all the original records, but she thinks they would have given them to the Coroner now.

There were no staff statements as these were all taken by the Police.

She informed me that there is a CHI review paper on their website on the Internet.
