Inquests

Peter,

Just to update you. I am seeing Lesley on Thursday and hoping to catch Dr Ian Reid at breakfast on Friday.

When is good for me to come and see you? I have an agenda for the steering group meeting sent to me by [Code A] I guess if we had 30 - 45 minutes before hand that would be helpful.

Did you suggest to RS that the steering group be disbanded or do we need to consider our tactics on that one on Friday? I see that 'amended terms of reference' have been issued. I have to say I'd rather they were undertaking some action rather than still worrying about terms of reference - though I do understand the need for proper constitution of these groups and audit trails.

On another matter do you know whether RS has informed [Code B] of our appointment? I would hate for us / them / the PCT to be embarrassed on Friday... There is no reason for them not to attend if the PCT wish to continue funding them - but I guess they might not want that. I'll take that under advisement
